      <h1>ABOUT ME</h1>
      <h4> PERSONAL INFORMATION / PERSONAL SKILLS / INTERESTS / HOBBIES </h4>

      <p>My name is RAGHAD SALEH I`m 21 YO from SAUDI ARABIA I live in JEDDAH, I  was born on June 17,2002<br><br>

        I am proficient in speaking Arabic and English. I have learned a little bit of Chinese and Korean as well
        from university and social media platforms.<br><br>

        I have strong analytical thinking skills and thrive when provided with time and space. I dislike psychological pressure.
        I am highly organized, respect deadlines and appointments, and value punctuality. Furthermore,
        I possess a knack for coming up with innovative solutions and have a critical mindset.
        I embrace individuality in my personality and have the ability to self-motivate.<br><br>

        I have a multitude of hobbies, and I enjoy engaging in new ones.
        I have a fondness for arts and things related to handicrafts and design.
        I love reading and writing, and I spend a significant amount of my time on them. I also enjoy playing group games.<br><br>

          I am interested in the history of the Arabian Peninsula. I enjoy learning about world cultures and peoples,
          and I have a passion for learning new languages.I have a good command of music and musical instruments,
          and I appreciate their influence on people.
          I have a penchant for deep thinking and engaging in discussions about non-materialistic and philosophical matters.
          <br><br>
        </p>

        <p>Data Base Project</p>
        <p>Description:</p>
          <p>
          Since many mothers, whether teaching assistants or students, work on university campuses,
          it can be difficult for them to balance work and childcare responsibilities.<br>
          These mothers may also feel neglected in their roles as mothers or at work.<br>
          Although the university has a nursery, some mothers may not be aware of it or know how to use it.<br>
          For this reason, me and my group decided to create a program that assists mothers in registering their children<br>
          so they can check on their kids while spending as little time as possible at work.
          </p>

          <p>Here is the file for more details :</p>
```

        <li class="li-SoftwareEng">EZIWAE
          <p>Software Engineering Principles Project</p>
          <p>Description:</p>
          <p>
          Our professional lives depend heavily on transportation, which is why we occasionally run into issues with it.<br>
          Some of us struggle to get transportation as students, and these days the cost has increased, and it is not very safe.<br>
          Thus, me and my team focused on used a software we named "Esiway" to solve this issue.<br>
          The application allows the user to schedule a private or bus chauffeur,<br>
          if the arrangement is for travel from his house to the university or the opposite.<br>
          The application is accessible to all employees.or just attends university classes

        <li class="li-iot">Motion Detection ( IR Sensor )
          <p>IOT Project</p>
          <p>Description:</p>
          <p>
          Everybody has priceless items that need to be protected and preserved, such jewelry, homes, vehicles, and shops.<br>
          Hiring protection for these priceless possessions can be quite expensive, making it unfeasible for most people.<br>
          therefore (ir sensor) is the ideal solution.The best way to safeguard and preserve valuables while keeping costs down is to use sensors.
          Motion detection sensors can be used to protect property by setting them up to detect any unusual behavior.<br>
          The sensor is intended to light an LED when motion is detected.
          </p>
